

Regarding MB Docket No. 04-233:

I'd like to voice my opinion regarding two radio stations AIR 1 and KLOVE which are heard on FM translators. I would be very upset and saddened if these translators were forced off the air with the proposed rule changes (LPFM given a priority over FM translator service). My 14 year old and 11 year old kids listen to these radio stations frequently, as do my husband and I. We have received nothing but positive, wholesome and encouraging messages from these stations which promote old-fashioned morals and fine character development, something today's youth in particular, needs to hear. The effect on the local community as well as my family would be great disappointment and loss of "community" in our already fragmented society. Facing the world with a smile on our face which often comes from listening to these radio stations gives HOPE to those who are hurting and looking for answers....the type of answers that don't drain the national budget. I feel KLOVE and AIR-1 greatly impacts the public and has a positive ripple effect in the lives of all listeners and those around them. If these stations were not longer operating, the net effect would be a huge loss for this country for people of all ages. I'd implore you to reconsider the proposed rule changes for the best interest of the American public in general as well as the next generation of leaders and citizens in this fine country.

Thank you,

Susan Lancaster
